Re: Permit Review Status, ECDC Environmental's ECDC Clay Mine, M/015/062, Emery County, Utah

Dear Mr. Olson:

On October 22, 1999, the Division received ECDC's updated plan to revise the ECDC Clay Mine operation. The new proposal is to expand the total acreage from the currently permitted 18 acres of disturbance to 32.8 acres. Due to a backlog of other permit reviews, the Division has not been able to complete a review of this plan within the usual 30-day timeframe. We apologize for the delay and any inconvenience this may cause you.

We hope to complete our review of your application within the next 30-45 days. We appreciate your patience and understanding in this regard. Please contact me if you have questions or concerns with this proposed review schedule.

Sincerely,

Joelle Burns
Minerals Secretary
